

Telescope Faults Forum – Roadmap

To log in:

Use a web browser and enter the following URL <http://faultreports.saao.ac.za/>

Or

Go to the SAAO Intranet page and use the links from there

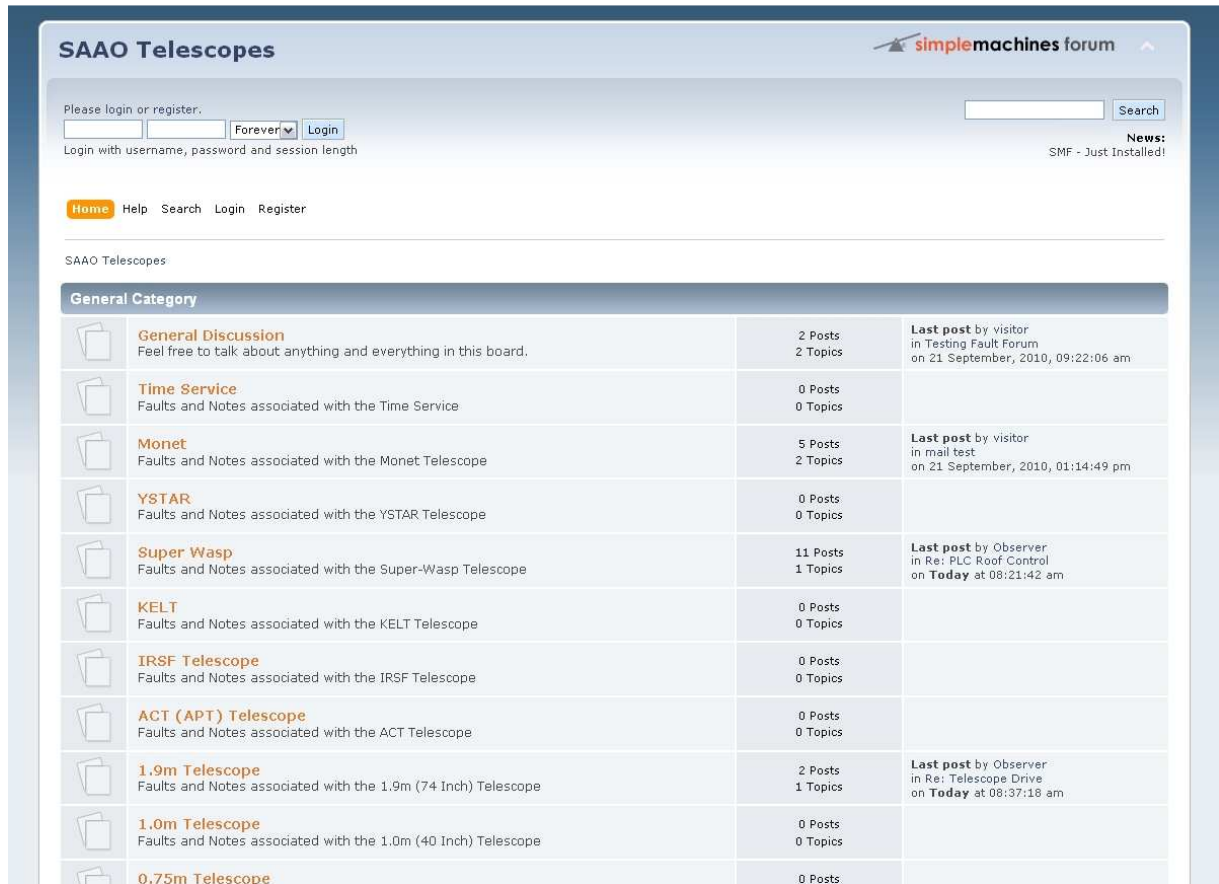

Or

Or

The following screen will appear

At the top is the Login prompt and below the different Categories. The user can now Login or click on a category to view. The user can view all postings without the need to Login.

For normal use the user can register him or use the Observer logins already created.

User Name	Password
Tel74	Saaotel74
Tel40	Saaotel40
Tel30	Saaotel30
Tel20	Saaotel20
Telapt	Saaotelapt
Telwasp	Saaotelwasp
Telkelt	Saaotelkelt
Telirsf	Saaotelirsf
Telmonet	Saaotelmonet
Telystar	Saaotelystar

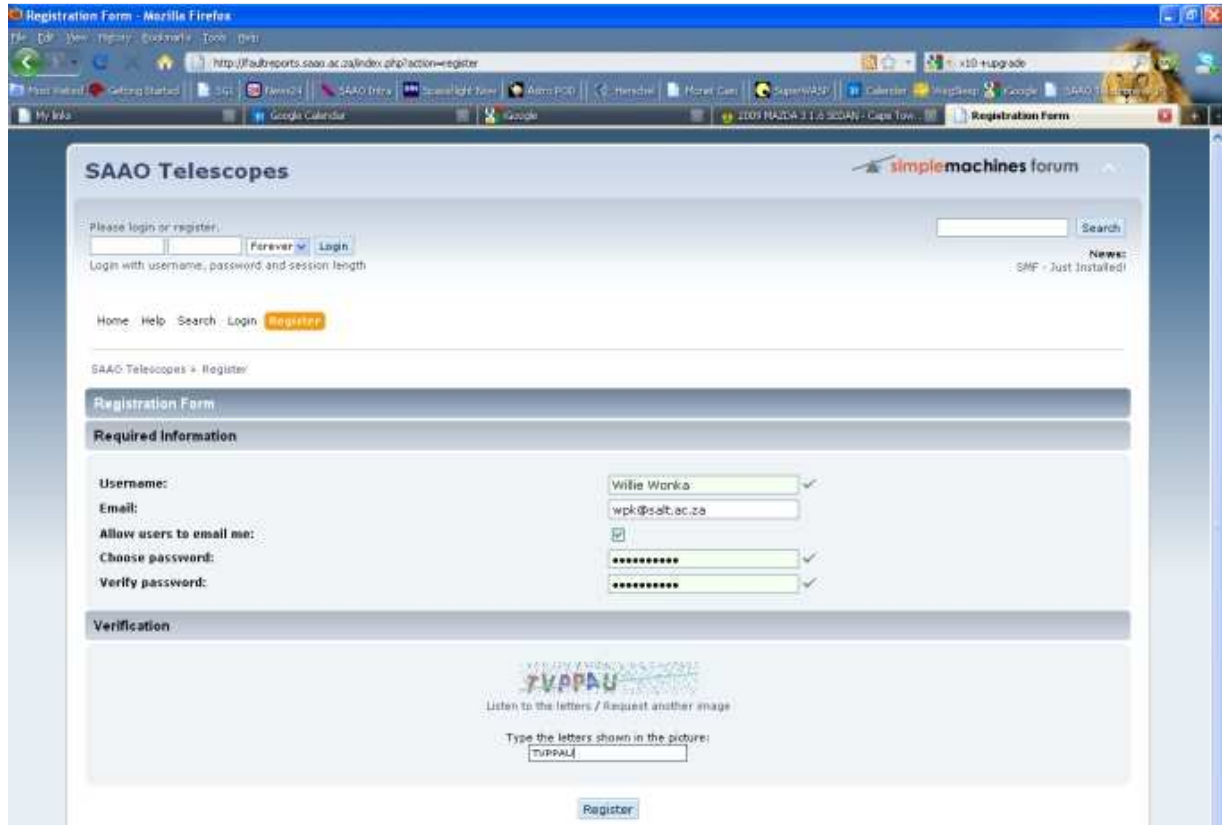

Once the user is logged in he can reply to current posts or create a new topic for a new fault.

If the web page is not operating the user can mail the fault to fauls@saao.ac.za and it will be read by all the relevant persons or the user can log the fault in the Fault book.

The system is setup to notify anybody that is on the fauls@saao.ac.za mail exploder when a posting is made. By clicking on the link in the notification mail that posting can be read. To reply to the posting the user must log in.

Subject: Welcome to SAAO Telescopes

Thank you for registering at SAAO Telescopes. Your username is Willie Wonka. If you forget your password, you may change it at <http://faultreports.sao.ac.za/index.php?action=reminder>.

Regards,

The SAAO Telescopes Team.

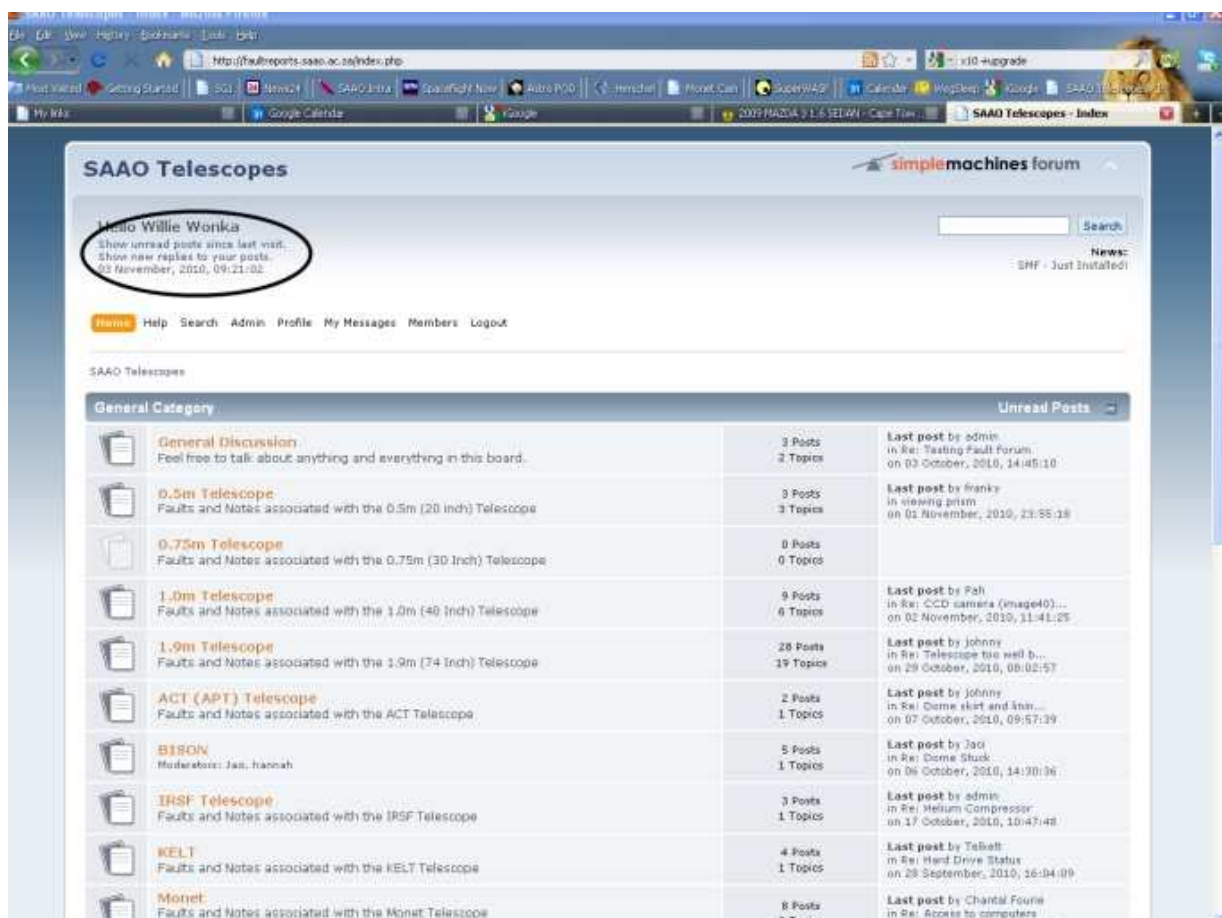

To view postings

Go to Faults Forum → Click on any Category to read. This is ok if you just want to check on something quickly. It is better to login

Several options available now

Click on any category to view

Or Click on one of the options available

The screenshot shows the SAAO Telescopes forum page. At the top, there is a navigation bar with the forum name and a search box. Below this, there is a user profile section for 'Willie Wonka' with a search box and a 'News' section. The main content area is titled 'SAAO Telescopes' and contains a table of categories. The table has columns for 'General Category', 'Unread Posts', and 'Last post'. The categories listed are: General Discussion, 0.5m Telescope, 0.75m Telescope, 1.0m Telescope, 1.9m Telescope, ACT (APT) Telescope, BIRON, IRSF Telescope, KELT, and Monet. Each category row includes a folder icon, the category name, a brief description, the number of posts and topics, and the last post information.

General Category	Unread Posts	Last post

Administration

Notifications

The system can post instant, daily weekly notifications. The instant notifications have a link to the posting and the actual posting in the mail. The daily notifications only have a summary and no link.

Example mail of an instant notification.

A new topic, 'Telescope too well balanced', has been made on a board you are watching.

You can see it at

<http://faultreports.sao.ac.za/index.php?topic=83.new#new>

The text of the topic is shown below:

The telescope appears to be too well balanced... It was jumping backwards and forwards in RA last night. Can you have a look at this during the day time.

Cheers, Patrick
